

Lockout/Tagout Tags

Lockout/Tagout, is the second most cited OSHA violation. Rules require that all energy sources be turned off and either locked out or tagged out while service or maintenance work is being performed. By protecting the worker from accidental release of energy (electrical shock, mechanical action, heat, etc.), this rule is saving hundreds of lives every year.

Almetek's durable, easy-to-complete and highly visible lockout tags will reinforce your Lockout program and save lives. Tags come in a wide variety of styles, materials and messages including Danger/ Caution/ Warning - Do Not Enter, Do Not Operate, Locked-Out, Needs Repair, etc.

STYLES

- Write-On
- Custom
- Defective Equipment
- Do Not: Open Valve, Operate, Start, Use, etc.
- Equipment Locked Out
