

STAINLESS STEEL FUEL MARKERS

Never repaint your faded stencils again!

One quick installation of these markers will permanently and clearly define the grade of fuel at the fuel port with mistake proof color-coded copy.

Each 4" disc has 3-D embossed letters and a low profile form to help prevent tripping. They are made of .0625" thick stainless steel and are designed to be durable, theft-resistant and to last for decades.

Easy to install. Surface or sub-surface mount, you save the cost and labor of painting year after year. Call for your free sample TODAY!
